

Peace Coffee

Organic Shade-Grown Coffee

We are pleased to offer you the opportunity to buy delicious Peace Coffee through the Preschool. We have been selling Peace Coffee as a fundraiser for the preschool for over fifteen years. We love this coffee! What could be better than having fabulous coffee delivered right to your kitchen via your preschooler's purple bag? Our Peace Coffee is bought through a local company who purchases it directly from small, family-owned and run coffee farms in Guatemala. This supports fair trade farming by guaranteeing family farmers a long-term buyer regardless of volatility in the global market and gives us great coffee at the same time!

The Peace Coffee program was founded in the Twin Cities several years ago in an effort to help returning Guatemalan refugees earn a living in their own country, and has grown steadily with the continuing support of local co-ops, cafes and restaurants and individual buyers like us. Last year alone, families at Lake Harriet UM Preschool purchased over 500 pounds of coffee!

Peace Coffee is available in 12 ounce bags for \$12 - the same amount you would pay at the store, *except* a couple of bucks goes to the preschool with each bag you buy. We offer whole bean & ground, regular & decaf in a variety of favorite blends & roasts.

Order forms will be sent home monthly and you will be billed for your coffee on your monthly tuition statements.

Thank you for supporting both the Preschool and a very worthy global cause!
