

APRIL 2024 NEWSLETTER

Room #104 - Mrs. Jordan

Thanks again to all of you for coming in or zooming with me to talk about your child. If you have any questions after conferences please let me know.

It has been so much fun watching the children being the *Star of the Week*. It can be a little scary being the center of attention for four days but the children seem to grow so much during their week.

April Focus - We will be focusing on signs of Spring / earth Day / recycling and our environment. We will discuss how we can help our world, reuse and recycle etc. We have caterpillars on order; they should arrive by the end of April. We will learn the life cycle and watch the caterpillars turn into butterflies. We will work on the letter sounds and what words start with that sound, the letters this month will be Vv & Ll. Our Dramatic play area will return to a "House" where the children can practice being a member of a family.

Show & Tell - Wednesday April 10th

The children should bring something that they can show their friends how to do for Show & Tell this month. Example: How to dribble a ball, how to do a cartwheel, play a game, read a book, do a puzzle, draw a rainbow etc,etc...

Classroom book - This month we will make a book in class. The book will focus on what the children are proud of being able to do.

Estimation Jar - All the children have had a turn to fill the estimation jar, we had lots of fun estimating and finding out who is closest. Some friends want another turn so I will be sending it home again to those that want another turn.

Volunteers - Please let me know if you are interested in helping out in the classroom. I could use some help on Earth day Monday April 22nd.
