

# April Newsletter

Ms. Julia - Room 102

## Our Monthly Theme

This month, Room 102 is embracing the theme of caretaking as spring brings "rebirth" all around us. We're transforming our dramatic play area into a Vet Clinic where children can practice nurturing and caring for animals. As we celebrate Earth Day, we'll discover how to be good stewards of our environment through hands-on activities. Throughout April, we'll observe nature's spring awakening as baby birds hatch, young animals emerge, and flower buds begin to bloom.

Thank you all for attending conferences. It was wonderful getting to know each of you better and sharing reflections on your child's semester! I'm pleased to share that most of our students will continue in Room 102 for the summer program, and I will be staying on as their teacher as well. This continuity provides an excellent opportunity for uninterrupted development and deeper relationship building.

## Important dates!

March 31 - April 4:  
Spring break (SOS days)

April 17th: Field Trip to Target Field - home of the MN Twins!

April 22nd - Earth Day Celebration

May 1st: Spring concert... more info to come

## Developmental Focuses

- Environmental stewardship
- Interpersonal skills
- Empathy & compassion
- Nurturing a sense of wonder
- Nonfiction reading

## Art Spotlight

Wood sculptures with recycled objects we tinkered with!

## Celebrating our Successes: March

1. Welcomed spring with a dirt cup celebration
2. Mastered our quiet hallway voices
3. Learned how to use screwdrivers safely
4. Found out what is inside a computer keyboard
5. Introduced "Question of the Day" and learned about voting
