

Infants 104 April Newsletter

It appears that spring may finally be arriving! After a winter filled with cold and snow we are enjoying being able to spend some more time outside in the warmth and sunshine. We enjoyed exploring our I Love to Read lesson theme for March, learning about Dr Seuss, Eric Carle, Sandra Boynton and Our Favorite Books. Our art wall was beautiful and we hope you enjoyed getting to see it grow as the month went on. We welcomed two new friends in March! Holly and Maeve joined our class and we are thrilled to have them be a part of our daily fun.

This month will be all about spring! We will have lessons about the plants of spring, baby animals, bugs, picnic and what we like to do outdoors during springtime. We look forward to seeing what the art wall will look like this month!

As the seasons are changing, please be sure to check your child's extra clothes in their cubby for appropriate season and sizing. We also

ask that you try to keep three full sets of clothing at school. We will be going outside daily so long as the weather permits. Please be sure your child has a jacket or sweater in their cubby for the spring days that it is a little chilly. We will be putting on sunscreen as well, so if you would like your child to have sunscreen from home, please send an unopened, unexpired and labeled lotion sunscreen (no spray sunscreens per licensing). We will be sending out updated feeding forms for the month. Please be sure these get back to us promptly so we know any changes in your baby's feeding plan.

As always, feel free to reach out to us if you ever have any questions!

Mrs. R, Ms. Mel, Ms. Vi
