

Room 102

MS. JULIA'S CLASSROOM GOALS

We celebrate individual strengths, interests, and cultural backgrounds, ensuring every child feels valued and seen for who they are.

Children will feel emotionally and physically safe, supported in taking learning risks, and confident in their ability to succeed.

We prioritize building strong peer friendships and nurturing connections between children, families, and teachers through collaborative experiences.

Children will learn to approach challenges with curiosity, try multiple solutions, and persist through difficulties with confidence.

We emphasize caring for others, understanding different perspectives, and contributing positively to our classroom community.
